

# Scale Factors and Dilation

Monday, February 08, 2010  
10:49 AM

$$SF = \frac{\text{image}}{\text{original}}$$

$SF > 1 \Rightarrow$  image larger

$SF < 1 \Rightarrow$  image smaller

$SF = 1 \Rightarrow$  image same size

---

$$m \overline{AB} = 5.36 \text{ cm}$$

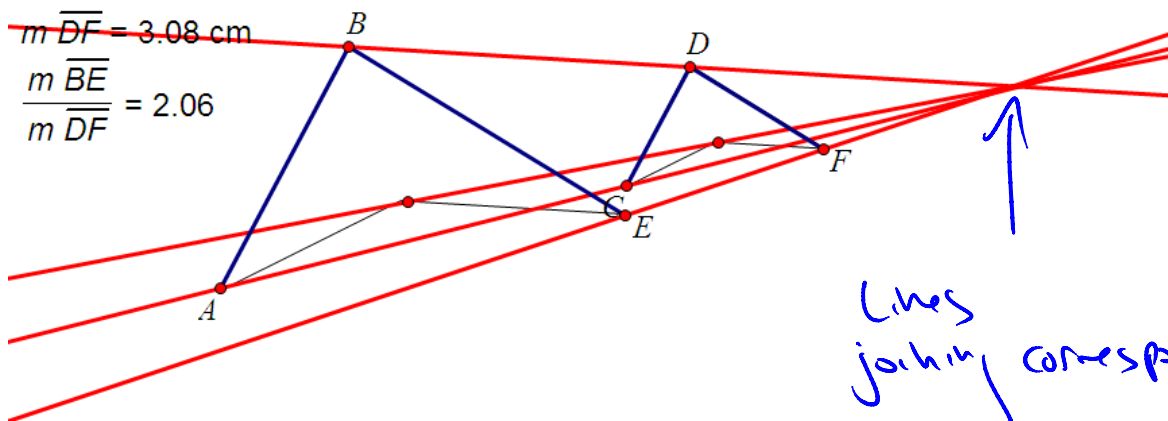

$$m \overline{CD} = 2.64 \text{ cm}$$

$$\frac{m \overline{AB}}{m \overline{CD}} = 2.03$$

$$m \overline{BE} = 6.35 \text{ cm}$$

$$m \overline{DF} = 3.08 \text{ cm}$$

$$\frac{m \overline{BE}}{m \overline{DF}} = 2.06$$

Lines  
joining corresponding  
vertices  
concur!
